3. Guest – Dr. Borsig

Dr. Borsig spoke mostly about the state funding formula and the bond bill.

- He stated that around April 30<sup>th</sup> they would know what the funding formula will be before the universities is and that the legislature would probably vote on it on March 31<sup>st</sup> or April 1<sup>st</sup>. He believes that it looks like level funding. He stated that the employers' retirement portion keeps increasing and the state may help pay for that increase this time and that we'll end up pretty flat. He used an Institutional Appropriation Diagram that he prepared for the Senate to help explain the funding.
- The bond bill provides capital improvement funds for repair and renovations, particularly items like reroofing. Since MUW has no buildings in need of that specific repair, there is the possibility that those funds may be moved to other areas where we need to make renovation and repairs (i.e., we need a total of about \$1 Million to finish sprinkling systems in two residence halls for the second phase of the library renovations.

### 5. Requests for Funding:

a. Fund A: A request was submitted by Dr. Handy; however there is no money, so she will be denied unless we receive additional funding. Dr. Toy mentioned that we don't typically go back and retroactively fund those who have been denied because the entire process must occur within a specified time frame. However, he will discuss with Dr. Heimmerman whether this is possible.

*\*Additional funds were secured for Dr. Handy (\$350), Dr. Mortyakova (\$350), Dr. Osburn (\$150), Dr. Dickey (\$150), and Dr. Toy (\$250).*
